

MANSFIELD POWER & GAS

Energy Costs Go Beyond Low MMBTU Pricing

At Mansfield, we understand reliable, low natural gas costs are part of our customers' big picture needs regarding total energy procurement and management. In addition to offering consistent, competitive pricing, the Mansfield team is dedicated to helping your company understand and reduce its total energy spend. After all, business owners know that the cost of energy goes well beyond the MMBTU.

Is Your Natural Gas Provider Proactively Managing Your Energy to Save You Money?

Experienced procurement professionals understand the need for a sophisticated energy partner when it comes to actively managing and optimizing their procurement, storage, and hedging strategies. Mansfield will partner with your organization to maximize savings and operational efficiency, allowing you to focus on running your business and growing the bottom line.

Commodity Risk Management—A Mansfield Specialty

While no one can predict natural gas prices with certainty, the effects of future price volatility on your company's operations can be controlled. For Mansfield's commercial and industrial customers, we implement a wide array of risk management tools essential to controlling the effects that market swings might otherwise have on your operations. When you have a business to run, commodity price risk should be the least of your worries. Mansfield offers a wide range of strategies designed to fit your unique needs, including:

- **Fixed Price** – Call Strips, Single Price, or Trigger
- **Indexed** – Monthly Adjusted Pricing
- **Basis** – Based on major trading hubs and NYMEX
- **Variable** – Daily Average, Fixed Basis, and FOM
- **Structured** – Price Caps, Take or Pay, BTU Swaps, and Landfill Gas
- **Tiered** – Combinations of different pricing methods for maximum flexibility

Mansfield's Value

At Mansfield, we make life easier for our customers through low costs, reliable supply, and excellent customer service. Our goal is to provide you with the lowest energy spend and the least administrative hassle through competitive natural gas pricing, intuitive billing consolidation, and a commitment to design a program that fits your company's unique energy needs. After all, at Mansfield, it's **Energy. Simplified.**

How Mansfield Does It

Through a combination of superior risk management strategies, broad geographic footprint, and a 60 year history of simplifying our customers' energy spends, Mansfield is able to offer competitive pricing and creative solutions to solve our customers' most complicated energy procurement needs. We have the expertise to help successfully execute your energy strategy.

Reduce Your Nat Gas Expense

Mansfield combines competitively priced natural gas supply with creative solutions that simplify and lower your total energy spend, including:

- Bill consolidation, including multiple energy commodities on a single bill
- Economical, interruptible service
- Balancing service customized to your peak demand
- Comprehensive risk management strategies
- Tariff analysis and optimization
- Storage & pipeline optimization

Energy. Simplified.

Utilize Mansfield's expertise to determine the optimal natural gas pricing structure for your business.

Consult a Mansfield Natural Gas Specialist

We understand running your business is complicated enough without having to worry about commodity price swings and supply shortages. The best solutions for your company are the ones designed for your unique needs. That's why we offer a detailed natural gas procurement analysis to study your business needs, goals, and strategy. Our experienced energy professionals will provide you with an energy plan customized for your specific business objectives.

The result? An energy solution that reduces your total natural gas spend, simplifies operations and grows your bottom line.
